**The process consists of a developmental screening administered to the child and a parent interview. This is required to determine your child's eligibility for the Preschool for All program. Every effort will be made to provide assistance with the family's home language.*

Preschool for All is the state of Illinois' initiative to make a high-quality preschool program available to 3 and 4-year old children. Preschool for All programs are funded by the Illinois State Board of Education to provide a free, 2.5-hour preschool program.

Your child may be eligible to participate in this program
if they will be 3 years of age on or before Sept. 1

*An optional, full-day preschool program is available,
as well as after school care.*

Please contact the school office for information about tuition and fees.

Our schools are also providers of
the Child Care Assistance Program
